JOIN THE NURTURELIFE[®] FAMILY AND GROW YOUR BUSINESS

What is NurtureLife[®] ?

NurtureLife[®] is a holistic perinatal massage therapy method developed by Pregnancy Massage Australia[®] that supports women who are nurturing new life. NurtureLife[®] was born from a desire to share our specialist knowledge and natural support techniques with women on their journey through pregnancy and beyond.

Certified NurtureLife[®] Practitioners deliver specialised massage treatment that focuses on nurturing both mother and baby. The NurtureLife[®] massage experience has a natural, comprehensive approach to perinatal care, offering a broad range of support with a unique focus on massage.

Once you have successfully completed the NurtureLife[®] Pregnancy Massage Practitioner Course and assignments you are eligible to join the NurtureLife[®] family of practitioners. By registering as a NurtureLife[®] individual practitioner or clinic, you will reap the many rewards that are available to you under the supportive umbrella of the NurtureLife[®] brand.

We strongly encourage you do this, as we believe it is a natural progression for our newly trained practitioners. Individual massage practitioners, multi-staff clinics or spas can all become registered members.

Why become a NurtureLife[®] Registered Practitioner?

NurtureLife[®] makes you unique.

Upon completion of the Pregnancy Massage Practitioner Course you will be eligible to join the NurtureLife[®] family and become a NurtureLife[®] Registered Practitioner. This identifies you as a unique therapist who is a specialist in perinatal care. As a NurtureLife[®] Registered Practitioner you will discover that your services are in high demand as women and health professionals continually seek quality practitioners like you.

NurtureLife[®] delivers on our promises.

We are dedicated to strengthening services to our clients and demonstrating our commitment to women's well being in all aspects of our business. NurtureLife[®] operates under a licensed business model that offers you a tiered fee structure based on whether you are an individual therapist, a spa or a massage clinic with multiple staff. This means you will only pay the fee that is relevant to your business structure.

There is an up-front license fee when you join the NurtureLife[®] family, then a small annual renewal cost that covers our costs of delivering unique services and support to you and your clients. We strive to keep our pricing reasonable and competitive, and our belief in what we are doing underpins the whole NurtureLife[®] business model.

NurtureLife[®] is registered by Pregnancy Massage Australia[®]
